

## PLAY MERRILL NEXT SUNDAY

### Morgan Stars Finally Arrange For Series of Three Bowling Contests

Interest in bowling at the Anderson alleys remains steady and some creditable scores are being made by local amateurs. For the month of March the board contained the following records:

W. J. Morgan, 224, 235, 237.  
A. Sherman, 221, 224.  
Henry Segerstrom, 236, 244, 248.  
Joe Boski, 209, 235.  
Ronald Reardon, 212, 214.  
Thos. Lawrence, 212, 232.  
Jas. O'Mella, 224.  
Carl Larson, 230.  
Grover Danfield, 221.  
Wm. J. Leu, 209.  
Geo. Knister, 215.

#### Stars Play Merrill

The series of match games between the Morgan Stars of this city and the Merrill Stars have finally been arranged and the first contest will be held at Merrill next Sunday. The Rhinelander boys go well prepared to meet the foe and look for easy money.

The Merrill News contains the following:

"The first of a series in three matches of five games each between the Morgan Stars of Rhinelander and the Stars of this city will be played on the local alley, Sunday afternoon, April 9th. The following Sunday the two teams will contest at Rhinelander. Then the quintette having the largest total of pins will decide the place where the third game is to be rolled. The two teams have a wager of \$50 on the game, total pins to count."

## EAGLES AT MARSHFIELD

### State Convention To Be Held There Next June 21-23

The Eagles of this city are watching with interest the preparations now being made by the Marshfield Aerie for the entertainment of the state convention to be held in that city June 21-23. From present indications the Rhinelander "buzzards" will be well represented at the gathering.

For this occasion Marshfield will be given over altogether to welcoming the visitors in proper style.

An entertainment fund of \$5000, has been pledged by public spirited men, and a long list of people who will furnish hospitality to the Eagles has been prepared. Marshfield will offer \$500 in prizes for the parade, which will be held on June 22, on Central avenue, one of the widest streets in Wisconsin.

Prospects are that several thousand Eagles will be there for the parade, as Marshfield is more easily reached by rail from different points than most other cities in the northern half of the state.

#### ISSIE'S FIRST APPEARANCE

Issie Cohen's friends were pleasantly surprised Tuesday forenoon to see him on the down town streets. This was Issie's first appearance since taken sick three months ago. For the last ten days he has been able to take short daily walks in the vicinity of St. Mary's hospital and is slowly regaining his former strength. As soon as he is in condition to leave the hospital he will go to his old home at Detroit for an extended recuperation. It is believed by Issie's acquaintances that the approach of the base ball season has served as a stimulant in hastening his recovery.

Mrs. Cohen, who has been with her son during his long illness, returned to Detroit, Friday.

O. E. Bloom, assistant auditor for the Ocoela Mill & Elevator Company was in the city Saturday checking up accounts at the local branch house of which M. H. Rogers is manager.

## NEW RACE CIRCUIT

Consists of Five Cities in The Wisconsin Valley.

Rhinelander Horsemen will be interested to learn that a new racing circuit has been formed, comprising Merrill, Wausau, Stevens Point, Marshfield and Antigo. It will be known as the Wisconsin Valley Short Ship Race circuit.

At a meeting at Wausau last week it was agreed to have three stake races in each of the cities, besides six class races, making three races for each of the three days of the county fair. Purses will be \$600 for the stake and \$400 for the class races. The stake races will be 2:24 pace, 2:20 trot and 2:15 pace.

Dates of fairs have been fixed as follows: Marshfield, Aug. 22-25; Merrill, Aug. 28, Sept. 1; Wausau Sept. 5-8; Stevens Point, Sept. 12-15; Antigo, Sept. 19-22.

## CHAS. A. PAYNE TO LECTURE HERE

### Celebrated Traveler Is Engaged For Series of Six Talks Week of April 9

A course of six stereopticon lectures will be delivered at the Congregational church by Charles A. Payne of Milwaukee, commencing Sunday evening, April 9, with an illustrated lecture on "Palestine and the Man of Galilee." The course is to be continued every evening from Sunday to Friday, and will include lectures of "The Yellowstone Park," "Beautiful Hawaii," "Ancient Rome," and the "Christian Martyrs." The latter is appropriately given on the evening of Good Friday. Of this lecture on Rome The Catholic Citizen of Milwaukee, in an editorial said: "Mr. Payne paid a glowing tribute to the Catholic church in his lecture on Rome."

The lecture course is under the auspices of the Men's League of the church, but the net profits are to be turned over to the Charity League.

It will interest the reader to learn that Mr. Payne has given 136 lectures in Milwaukee alone; Racine 13; Oshkosh, 29; St. Paul, 19.

The following is clipped from the Wyoming Tribune: "The coming of C. A. Payne is no ordinary event. He captures his audience wherever he goes."

The pictures to be shown are of the finest quality, and the descriptions accompanying them are graphic and eloquent.

#### OPENS NEW STORE

Albert Udkler Engages in Business At 220 Thayer Street

Albert Udkler has decided to engage in the mercantile business at 220 Thayer street, the same building in which he formerly conducted a restaurant. He will carry a stock of clothing, gent's furnishings, dry goods and notions.

Mr. Udkler is favorably known to the people of Rhinelander, having at one time been in the restaurant business here and later was a member of the firm of Swanson & Udkler, meat dealers. He has always made an aim to please his patrons.

Mr. Udkler went to Minneapolis yesterday for the purpose of purchasing a stock. His new store will be opened about the middle of the month.

#### GOING TO IDAHO

E. B. Flagg has resigned his position with the Rhinelander Paper Company to become affiliated with Harrigan & Herrick at St. Maries, Idaho. Mr. and Mrs. Flagg will leave for their new home in the west the latter part of April.

Harrigan & Herrick are heavily interested in the lumber industry at St. Maries and Mr. Flagg's position with the firm will be a responsible one.

Mrs. John Hall of Goodman calls of friends in the city Monday.

## NO CHANGES MADE IN CITY OFFICERS

### Walker, Steele, Swedberg and Moberg Are Retained By The People

Tuesday's election was a quiet one in this city, although a fair sized vote was polled. The result shows that the people are apparently satisfied with the manner in which the present city officers are conducting affairs as all were voted to retain their places. The officials who have previously been appointed by the city council, are H. F. Steele, city attorney; Gust Swedberg, city clerk; Sam Moberg, street commissioner; D. H. Walker won out for municipal judge by 442 majority in the city and county over his opponent R. I. Morter. For justice of the peace W. B. LaSalle had no opposition.

In a few of the wards there was spirited contests for aldermen and supervisors. In the first ward John Strangsted defeated Wm. F. Wilcox for alderman. Mr. Strangsted will be the only new member on the council. While Cain, in the second ward, Pecor, in third ward, Calkins in the fourth ward, Baker, in the fifth ward and Gilley in the sixth ward, seemed to have strong opposition, they won out easily.

In the first ward Andrew Olson defeated John Dorsch for supervisor. John Barlow in the second ward had no opposition. In the third ward H. E. Keppler, the present member, was re-elected over J. E. Bonnie. A. W. Brown had no opposition in the fourth ward. There was a spirited fight on in the fifth ward between the friends of F. E. Parker, present supervisor, and Arthur Taylor, who served long on the county board, in which Mr. Parker was re-elected by a majority of 13. J. G. Dunn, the veteran member of the sixth ward, had everything his own way.

There was a surprise in the falling off of the socialist vote over that of a year ago. Lynn Thompson candidate for city clerk, received 132 votes; Garrett Lee, for street commissioner 139 votes. A year ago Sam Perinler lead the Socialist ticket for mayor with 327 votes. Following is a tabulated table of the returns.

## EASTER OPENING MONDAY

Kolden Dry Goods Company Arranges  
For Annual Display.

The management of the Kolden Dry Goods Company announces to the ladies of Rhinelander that the Easter opening at the big store will be held next Monday. This is an annual event which is always looked forward to with keen interest and anticipations of delight by feminine shoppers. The opening at Kolden's this year promises to exceed all previous displays yet attempted by the firm. Decorators are now busy adding to the beauty and attractiveness of the store. When their work is finished the scene will be that of a miniature fairland.

As a result of a recent trip of the firm's buyer to the markets of the large cities a heavy consignment of all that is new in dry goods has just been received. The exhibit of late spring creations in dress materials, suits etc., would do credit to emporiums of the leading fashion centers. Those who contemplate making Easter purchases will do well to visit the store next Monday. Additional clerks will be provided to insure prompt attention to all buyers. Each lady will be presented with a pretty souvenir.

## CO. IS PRAISED BY GENERAL KING

### Famous Officer Is Well Pleased With Excellent Showing of Guards

For the purpose of preparing the members of Company L for annual inspection on April 15th, Gen. Chas. King, of the United States Army, instructed the organization in drill work at the Armory last Friday evening. The instructions were largely of a private nature and only a small number of visitors were present.

Gen. King put the men through all the necessary military tactics and expressed both surprise and satisfaction at the worthy showing made by them. In squad maneuvers the company was at its best and the efficiency with which the guards performed these movements drew forth more than one pleasing comment from the General. He selected two squads, each consisting of seven men and a corporal, and put them through a rigid test. Not a hitch occurred during the entire drill, the participants obeying the various commands with machine like perfection. General King informed the Company at the finish of the maneuvers that out of forty-two companies in the state, which he had visited, Co. L out classed them all in this department. He praised Captain Walker and other officers of the company for their ability, as military instructors.

General King, who is famous both as a soldier and literary man, has always made the yearly inspections of Co. L, and has several personal friends here. He is instructing all the military companies in the state and went from this city to Ashland.

#### BENEFIT FOR WALTER GRENIER

On Thursday evening, April 27, Oneida Lodge No. 1156, Modern Brotherhood, will give a benefit dance for one of its disabled members, Walter Grenier. The Armory has been rented for this affair and music will be furnished by the Military orchestra. Tickets are \$1. While at work in the woods last winter Mr. Grenier met with an accident which necessitated the removal of his right leg.

#### COMPLETES HIS COURSE

Joe Hutchinson is expected to resume his position as prescription clerk at Reardon's drug store on April 14. He will complete his post-graduate course in pharmacy at Marquette, Milwaukee, at that time.

## POOR LO IS TRICKY

Hide Presented for Bounty Is Not  
That of a Wild Cat

County Clerk W. W. Carr received communication from their secretary of state at Madison Monday, informing him that after a careful examination by several experts the hide presented for bounty last week was not that of a wild cat but, of a common house cat, as Mr. Carr had supposed.

The hide was presented to Mr. Carr, who paid the bounty on the same, by an Indian of the town of Little Rice. Although the clerk had his doubts as to the skin being that of a wild cat he gave the applicant the money on the strength of an affidavit made out by Mr. Kelly, the clerk of the above town. That Mr. Kelley was entirely innocent in the matter, there is not a doubt. It is believed, however, that the Indian is guilty of an illegal act. Poor Lo will be given a chance to explain.

## FRED T. COON IS AGAIN PRESIDENT

### Agricultural Society Re-elects Him At Annual Meet- ing Saturday.

The annual meeting of the members of Oneida County Agricultural Society was held at the City Hall, on Saturday, the following officers were elected.

Pres.—F. T. Coon.  
V. P.—J. Driscoll.  
Treas.—Geo. Mahoney.  
Sec.—Arthur Taylor.  
Directors—C. P. Crosby, D. Joslin, H. N. Moran.

Supt. Speed—Dr. Whiting.  
Supt. of all Depts.—W. C. Orr.

The gathering was well satisfied with the results as shown by the annual reports. There was a strong sentiment for the re-election of the old officers. F. T. Coon said he would serve again as president if the office were forced upon him but if there was a man in the hall who wished the presidency he would step aside, but the sentiment was strong for Mr. Coon's re-election. In fact, for the re-election of all the officers. The spirit of the meeting gave promise of a good fair for 1911. The date for holding the next Annual Fair will be set later by the officers and directors.

## WERE BOYHOOD CHUMS

### Fred Moore Played Circus With The Late Otto Ringling.

Otto Ringling, the famous circus man died in New York City Friday night at the home of his brother, John, as the Barnum & Bailey Show of which he was joint owner, with his four brothers was giving its opening performance at Madison Square garden. He was fifty-one years of age.

Death was due to uraemic poisoning. The funeral was held at his birthplace, Baraboo, Monday afternoon.

Mr. Ringling was a personal friend of F. E. Moore of this city. Mr. Moore and Ringlings attended the same school and were playmates when boys. Their favorite pastime was giving back yard circuses at ten pin admission, using common gunny sacks sewed together for tents.

#### HOLD UP SOO TRAIN

Two masked men boarded the Soo line train north bound between Prentice and Phillips Monday and attempted to hold up the passengers. Word was sent ahead to Phillips and when the train arrived there the would be bandits were met by twenty sheriffs and town marshals and quickly corralled.

The men procured no booty; their identity is unknown.

The following is a copy of a circular letter being issued by one of our business concerns. If a letter fails to reach you and the shoe fits, put it on:—

## A HEART TO HEART TALK

BY A FELLOW CITIZEN

When you are advertising to the world the fact that it is best to "SEE RHINELANDER FIRST," when you are bulling with might and main for new factories; when you are earnestly advocating that our present industries should be encouraged, just sit down and figure out whether YOU are doing all in YOUR power to build up Rhinelander. THE ONEIDA STEAM LAUNDRY of Rhinelander is one of the essentially local concerns of its kind in the city, owned and run by people who are actual residents of Rhinelander, and who always expect to be such. Do you think this concern is getting the support it should from YOU considering the position it occupies? Because you have been a Chinese customer for ten years is no reason why you should continue to patronize them.

THE ONEIDA STEAM LAUNDRY pays out \$30.00 per week in salaries to RESIDENTS OF RHINELANDER. Does any other Laundry pay any wages at all to CITIZENS OF RHINELANDER?

THE ONEIDA STEAM LAUNDRY pays out about \$40.00 per week for fuel, power, water and sundries. Does any other Laundry pay out even ONE-TENTH as much?

THE ONEIDA STEAM LAUNDRY represents an investment in plant and equipment of \$4,000, and pays annually in the coffers of this city its just proportion of taxes. Do you know of any other Laundry in this city which does that, or if it does, pays ONE-TENTH as much as we?

Moreover, consider this: More than one-third of the work given this Laundry comes from outside the city. And we have only just begun trying to get that outside business. Isn't that a strange commentary upon the loyalty of the people of Rhinelander? As you read this, figure it out for yourself: "Am I as loyal as I ought to be to the industries of my own city?"

Then there is another thing: Do you ever hear anyone say NOW that the other Laundries do better work than this Laundry? We don't believe you do, because such a statement would be wholly contrary to the facts. Such a statement might have been made in the past, but not NOW. We guarantee our work, and our guarantee means something. Give us one trial. If you are not satisfied we won't expect to see you back again. Our specialty is SHIRT, COLLAR and CUFF work.

We have tried to speak plainly and hope you see the point.  
All work called for and delivered.

## EVENTS OF WEEK IN OTHER TOWNS

### Items of More or Less Importance Boiled Down From Neighboring Exchanges

#### Ironwood

This city has been selected by the Postmaster General as one of the cities in which one of the forty-five additional postal savings banks soon to be opened will be located. This matter was taken up with the Department by Postmaster Houk some time ago, and the bank was secured chiefly through his efforts. It is not thought that this will injure the other banks in any way but will have a tendency to prevent the sending of money to Europe by Ironwood's large foreign population.

#### Ladysmith

The proposition of holding a Harvest Festival is being discussed by the farmers and business men. The plan, as proposed, is to have an exhibit of grains, grasses, fruit, vegetables and live stock etc., offering premiums of sufficient amount to stimulate interest in competition. A few attractions in the amusement line would also be added. The festival would be for one day only and it is reasoned would be of great value in encouraging the farmers.

#### Merrill

Over \$40,000, according to P. J. Sholasky, district manager of the Wisconsin Telephone Company, will be expended on improvements in the telephone service in this city. The entire system will be reconstructed, new material replacing the old. W. E. Thielman, after serving thirteen years, has resigned as manager of the company and will be succeeded by W. F. Hallfrish, of Oshkosh.

#### Hurley

Assemblyman Stevens has sent word here that the assembly committee on towns and villages has decided to report favorably the bill creating the town of Oma out of territory in the town of Vaughan, not as originally drawn up, but to contain all the territory in the town of Vaughan south

of Hurley. It seems that no one knows just how far south the village of Hurley extends and many are at a loss to know how much territory would be left in the town of Vaughan. This action of the committee does not meet with favor among the majority of people.

#### Bessemer

The people of this city are making elaborate preparations for the entertainment of the many visitors who are expected here in attendance at the Upper Peninsula Firemen's tournament next August. At a meeting held recently several committees were appointed to have charge of the arrangements.

#### Grandon

The city is to have a broom handle factory. Mr. Cambler of the Wisconsin and Northern Railway was here last week consulting Mr. Frank concerning the building of a side track to the site of the proposed plant. Mr. Frank will probably build the factory near the Palse cement block yards on the line of the W. N. road. A number of hands will be given employment.

#### Clintonville

Contractor Herman and his crew of men have arrived and active work on the breaking of the ground for the building of the new Four Wheel Drive Auto company's plant is now under way. A survey for a side track to the location of the factory was made by the Northwestern civil engineers, Friday. The Four Wheel Drive Auto company is strictly a home concern, the required capital being furnished by Clintonville business men.

#### Park Falls

Damage estimated at \$10,000 was caused by a fire at the plant of the Atwood Lumber & Manufacturing company Wednesday morning. The blaze was in the planing mill and is thought to have started from saw dust which had sifted down through cracks in the floor. The fact that the structure is of steel prevented its total destruction. A large crew is repairing the damage and the plant will resume operations within a week. The loss is covered by insurance.

#### Prentice

Three alleged pick-pockets, said to be wanted by the police of several large cities, were arrested Friday morning in this village by Sheriff Hewitt and taken to the Phillips jail.

The trio registered as E. McDonald, Ed. McCarvin and Geo. Jearett, but the names are believed to be fictitious.

#### Escanaba

The heirs of Frank Walstrom have commenced suit for \$10,000 against the Van Camp Lumber company of Iron Mountain in the Dickerson county circuit court. While operating a log loading machine in the yards of the company last December Walstrom was killed. It is claimed that the proper safe guards were not provided by the company for the position in which the deceased was employed.

#### Grand Rapids

The body of Silvert Johnson was found by searching parties Saturday afternoon in the Wisconsin river just back of Daly's drug store. Mr. Johnson, an old resident of this city, had been missing for over a week and nothing was known of his whereabouts. It is now believed that he fell into the river just opposite the J. D. Arpin residence where Mrs. King heard cries from a man one night, while on her way home. This is the second corpse found in the Wisconsin river during the last week, the other being that of Thos. Shawsdowsky, who was drowned at Blron over a year ago.

#### Wausau

Mrs. Frank Oswald was found dead Saturday night at her home at the Rothchild pavilion of the Wausau Street Railway company. The circumstances under which the corpse was found indicate suicide by chloroform, although no cause for such an act is known. Mrs. Oswald was prominent in Wausau society and her husband is manager of the pavilion.

#### Ashland

There is much rejoicing at Northland college over the receipt of notice that Dr. Pearson will on April 17 send the college a check for \$10,000. Dr. Pearson made a pledge a little over a year ago to give \$10,000 to Northland college provided \$20,000 was raised in other contributions. Through the constant work of President Fenenga this additional sum has been received in contributions from all over the country. Northland college is the only institution above high schools in the northern half of Wisconsin except the normal schools, and if the rapid growth of this institution is continued as it has in recent years, it

## ECLIPSE OF SUN

Visible in the United States On Friday, April, 28th.

There will be a total eclipse of the sun April 28, visible as a partial eclipse thruout the greater part of the United States and down to Panama, over the middle Pacific ocean, and eastern Australia. The path of totality lies wholly in the ocean, passing over some groups of island. Madison will be close to the northern limit of visibility of the partial eclipse, and a little entering of the dark moon on the southern limit of the sun may be detected about three-quarters of an hour before sunset.

The above information is given out by Professor G. E. Comstock of the Washburn observatory. Other data supplied by the observatory is to the effect that Mercury, Venus and Saturn will all be to the west in the evening sky during the early and middle part of the month, while the brilliant Jupiter will be seen rising later over the southeastern horizon followed in the early morning by Mars.

Mercury will be in conjunction with Saturn April 10, and will pass by on the north side of that planet at an angular distance nearly equal to that between the Pointers in the Great Dipper. On April 14 Mercury reaches greatest elongation east and for about two weeks in the middle of the month the planet will be favorably situated for observation. Venus is increasing in brilliancy as the evening star and hangs long over the northwest horizon as it approaches setting. Saturn sets now in the middle of the evening and will be overtaken by the sun and disappear in its light before the close of the month.—Marquette Eagle-Star.

### TRAMP IS THIRSTY

He Steals Quart Of Milk From The Henry Home.

While Mrs. John Henry was attending services at St. Mary's church one morning this week, a tramp entered her home at 125 S. Pelham st. and drank the contents of a quart milk bottle which he removed from the ice box. The man was seen in the neighborhood a short time before Mrs. Henry left the house. Seeing the lady depart he took the opportunity to sneak into the house in search of food, feeling safe in his confidence that no one was at home. Nothing of value was taken from the premises.

## What To Do

### Sickly Children

Letters from Mothers  
"I wish I could induce every mother, who has a delicate, sickly child, to try your delicious Cod Liver and Iron Tonic VINOL. It restored our little daughter to health and strength after everything else had failed."—Mrs. C. W. Stump, Canton, Ohio.

Mrs. F. P. Skonnard, of Minneapolis, Minn., writes, "I want to recommend VINOL to every mother who has a weak or sickly child. My little boy was sickly, pale, and had no appetite for two years. I tried different medicines and doctors without benefit, but thanks to VINOL, he is a well and healthy boy today."

C. Allen, of New Bedford, Mass., writes, "My two puny children gained rapidly in flesh and strength in a very short time after taking VINOL."

We positively know VINOL will build up little ones and make them healthy, strong and robust. Try one bottle, and if you are not satisfied, we will return your money.

READING NOTICES will be charged at ten cents per line for the first insertion and five cents per line for each subsequent insertion.

ALL NOTICES will be charged at regular rates except notices of church service. Paid entertainments or Churches will be charged at half rates.

Carter H. Harrison was elected Tuesday for his fifth term as Mayor of Chicago. He won over Charles E. Merriam, his republican rival by 17,000. A poor third in the race was the socialist candidate with a total vote of 24,000. The total vote of the city was 365,000, smashing all previous records for a mayoralty candidate.

DEMOCRATS IN CONTROL

Congress opened Tuesday with a democratic majority in the house, the first time the democrats have been in control in the house for sixteen years. President Taft's message was read, recommending the passage of the reciprocity treaty.

The democrats have a full program which will probably make the president regret he ever called a special session of congress. Their first move is to amend the Payne-Aldrich tariff, Taft's pet.

ELECTION IN MILWAUKEE

At the Milwaukee elections Tuesday, the non-partisan ticket won out for school board members and judges. It was a case of the democrats and republicans voting the non-partisan ticket, consequently the socialists were confined to their own vote.

The total vote was 32,000, of which the socialists received 10,603 one third. This is the per cent they have been receiving except when the voters became disgusted with the Rose administration.

THE TIME TO ACT

A letter from Assemblyman D. B. Stevens received this afternoon states that the committee hearing on the Normal school bill will be held next Thursday, April 13th, at 2 p.m. The city officials and business men should lose no time in getting together for the purpose of appointing a delegation to send to Madison to represent Rhinelander's claims. This is the hour to act. Mr. Stevens needs your support; he is doing everything in his power to secure a Normal school.

MORE INTEREST NEEDED

A normal school would be of greater ultimate benefit to the city both in a business sense and the upbuilding of its citizenship than any manufacturing institution and it is to be regretted that a more active interest is not manifest.

Other cities which have similar aspirations had representatives before the legislature while Rhinelander which has unquestionable advantages in geographical location, railway facilities, etc., left the entire burden with its assemblyman.

Rhinelander Herald, April 1.

LIBERTY BEFORE DOLLARS

If our army and navy are being assembled on the border of Mexico to enforce the neutrality laws, well and good but it looks to a man on the fence as though there is something else behind the move. If our forces are to be used to assist President Diaz in quelling a righteous insurrection then we think that the President will hear very forcibly from various parts of this continent.

Since when have the military forces of the United States been eligible for the defeat of patriots fighting for their rights? It is a well known fact that the present government in Mexico is a real dictatorship and no republic. How would it seem to you fellow-citizen if in our recent election any one who dared to become a candidate against the man in power had been declared an

outlaw, banished from the country and all his supporters arrested and imprisoned? Yet that is what was done by Diaz in Mexico. It is our prophecy that before quiet is restored to Mexico the present regime will have to retire and allow an honest election and the reforms demanded by the insurgents will have to be given to them and we shall object to the military forces of the United States being used to keep Diaz in power even if his overthrow will interfere with the financial plans of a few prominent financiers of the country.

We shall demand that the liberty of the individual Mexican be placed before the protection of American dollars, and we would suggest that President Taft move very carefully in the matter. He may well remember that something over a hundred years ago these colonies were in about the same position and those who had large wealth invested here at that time were to a man opposed to the side of the colonists. The sympathy of the American people will go out to any people fighting for freedom and justice.

WHY SOME MAKE ENEMIES

During the Cleveland campaign some one said: "We love him for the enemies he has made." Every man who stands firmly and speaks boldly and bravely for the weak and the oppressed is bound to make enemies of the strong who are oppressors.

Every man who stands for the right, the true, the pure, and who resolutely faces and denounces the oppressor, battling at the same time for the oppressed, is sure to make enemies. Which is the better? To so live that you make enemies of this kind, or to go through life so weak of soul, so cowardly of heart, so innocuous of influence, so silent in word, so barren indeed that every worst villain in the universe knows that you will never say a word about him no matter what he does. The world should be glad that there are those who make enemies. That we are men, women, and may protest, and fight, and battle against wrong, and thus be known and blessed for the enemies we have made. So, don't worry when you find that someone you love has bitter enemies. Seek to know why he made these enemies, and if they were made in the way I have suggested, then be prouder than ever before that you are allowed to be friendly with a man, a darling, bold, true-hearted, pure-souled man who has exposed the evils of villains and has therefore won their enmity. The friendship and influence of such a man upon your life will be worth more than a fortune. Prize it, seek to emulate it and make yourself worthy of it. Get busy! Set to work! Make some enemies as soon as you can. They will be a blessing to you all through life, will enemies of that kind.

RHINELANDER LIGHTING CO.

The Railroad Commission of Wisconsin determines the reasonableness or unreasonableness of rates charged by a public utility.

When called upon to act it makes a thorough investigation of the subject submitted to it, affords all interested parties an opportunity to be heard, and then determines what is fair to the utility and fair to the public. This tribunal is absolutely impartial and does injustice to none. Its assistance should be sought by the utilities as well as the public.

After devoting considerable time and space in the past to a discussion of the advisability of calling upon the Commission for a determination of what constitutes a fair schedule of rates as between the Rhinelander Lighting Company and the public, THE NEW NORTH strongly advocates a submission of the question to that tribunal. There seems to be no substantial objection to this course.

If present rates are unreasonably low they should be raised; if unreasonably high they should be lowered. Neither the public nor the Lighting Company should desire anything but a schedule of rates fair to both. This the commission would establish.

There are two ways in which to secure the assistance of the commission. One is action by the city council; the other a petition signed by twenty-five residents of the city. Owing to the fact that the city is paying a large sum of money for its street lighting, lighting of its school houses, etc., and is also the natural protector of the interests of its inhabitants, we think the public may safely look to it for the necessary action, upon learning the facts.

Regardless of result, no charge will be made against the city for an investigation; nor will any charge be made against the Lighting Company unless its present schedule of rates is found unreasonable, in which case the company may be charged the cost of the investigation. Since such an investigation is without cost to the city in any event, and without cost to the utility unless present rates are found unreasonable, opposition to an

Saving the Pennies.

James A. Patten at a dinner in Chicago defended his notable assertion that speculation is the staff of business. "The old fashioned idea of the importance of saving the pennies," said Mr. Patten, "has gone out. It isn't the saving of pennies that such a fortune as Pierpont Morgan's or George Gould's is now piled up. Frugality may be the road to wealth, but it is not the speedway."

Juvenile Pessimism.

"It used to be," confided the little girl to the caller, "that when I prayed for a nice day I got it, but since the Lord quit makin' the weather an' the gov'ment hires a man to look after it I've quit. It don't do any good."—Chicago Tribune.

Proper Adornment.

The Robin—There's some talk lately of the S. P. C. A. putting bells on cats. The Sparrow (serely)—Bells are too good for the assassins. They should be banned.—Illustrated Sunday Magazine.

Buttons. The Elizabethan era gave vogue to the button and buttonhole, two inventions which may fairly be regarded as important, since they did much to revolutionize dress. The original button was wholly a product of needle work, which was soon improved by the use of a wooden mold. The brass button is said to have been introduced by a Birmingham merchant in 1680. It took 200 years to improve on the method of sewing the cloth upon the covered button. Then an ingenious Dane hit upon the idea of making the button in two parts and clamping them together with the cloth between.

Disatisfied.

The haughty looking woman upon whose features the dermatologist had been working for more than two hours sneered when she glanced in the mirror. "I certainly thought you knew your business," she snapped, "but you have not even given me fair treatment."

The man shrugged his shoulders. "If you had wanted fair treatment you should have been more explicit," he retorted. "I thought from what you told me that you wanted brunette."—Chicago News.

Brave as a Boy.

Weigler—I see that Gausler has been given a medal for bravery. Matchleyette—Well, he probably deserved it. He always was brave. I remember when he was a boy that he was the only one in the neighborhood who would go to his mother when she beckoned with one hand and held the other behind her back.—Chicago News.

A Sailor's Hands.

A sailor is betrayed by his hands, though his gait might betray him. They are permanently half shut. Walking, talking or sleeping the sailor has his hands half shut and could not open them flat if he tried. This is the result of years of climbing and pulling ropes.—London Chronicle.

The Joke on Her.

The Friend—Your wife doesn't appear to be in very good humor. Husband—No; she thinks I've invited you to dinner.—Jean Qui Rit.

"The Laocoon."

The famous work, "The Laocoon" was modeled by the great artists of Rhodes about A. D. 70. It represents the death of the Trojan hero Laocoon, priest of Neptune, and his two sons, as described by Virgil. It was discovered near Rome in 1506 and purchased by Pope Julius II. It is now in the Vatican. "The Laocoon," like "Hamlet," has provoked a world of comment, but all agree that it is one of the masterpieces of artistic expression.—New York American.

If he does not comply with these orders he will be arrested on the two remaining warrants out for him. It is said that the Dietz family have now raised over \$4,000 for their defense.

On Saturday morning the delivery horse of the Oneda Steam Laundry demonstrated that he is capable of traveling in the Harvester class by starting on a lively run down Brown street. Judge Walker, who was crossing the street on the way to his office, succeeded in flagging the animal before he could accomplish any damage. The Judge's deed was a heroic one and is entitled to recognition by our friend, Andy Carnage.

### SPECIAL TEACHERS' COURSES

University To Offer Instructions in Home Economics.

To meet the demand by teachers of the state for instruction in agriculture so that they may be prepared to present the subject effectively in the graded and high schools of the state, the college of agriculture of the University of Wisconsin will offer special teachers' courses during the coming summer. Instruction in home economics, including millinery, sewing and cooking, will also be given.

Instruction in agriculture for teachers will consist of general agronomy, plant propagation, school gardening, a study of soils, elementary live stock judging, testing of milk, agricultural bacteriology, agricultural chemistry and farm architecture.

A new course for the training of teachers of physical education has been adopted by the faculty of the University of Wisconsin to be under the direction of Prof. George W. Ehler, head of the department of physical education. It includes four years of training in all phases of physical education, together with courses in anatomy, physiology, psychology and pedagogy.

Methods of making physical and medical examination, prescribing of corrective exercises, the physiology of exercise, kinesiology and the nature of function of play are among the subjects included in the new course.

#### OLD ROMAN COIN

Theodore Saterstrom has added another rare coin to his collection. It is a Roman piece of ancient date and is highly valued by collectors.

## BIG BOXING AND WRESTLING SHOW

Unusually Strong Card Is Dated For April 12th. In This City.

At the Grand Opera House, Wednesday evening, April 12, the sporting fraternity of this city will have the opportunity of witnessing one of the best boxing and wrestling exhibitions ever held in northern Wisconsin. An unusually strong card has been planned for the evening as a glance at the following names, well known to the wrestling and boxing game, will testify.

Geo. Carroll, of Oconto Falls, and Jake Welch, champion wrestler of Michigan, will struggle for supremacy on the mat. The contest will be catch as catch can, best two out of three. Carroll needs no introduction to local fans, having appeared here several times in the past. Welch is said to be a clever wrestler and has a long list of victories to his credit. This part of the show promises to be especially interesting.

Young Friolo, the Hurley wonder will meet Ben Sohr of this city in a six round go. These boys recently boxed a draw at Hurley a few weeks ago. Both are handy at manipulating the gloves and will manage to give a speedy exhibition.

The main mill of the show will be between Bill Bresnahan, champion of the Northern Peninsula, and Fighting Dick Creamer, a local boxer of prominence throughout this section of the state. This bout is slated for eight rounds every one of which will be fast and gingery. Bresnahan is regarded as a whirlwind by his Wolverine admirers. Hanging to his belt are the scalps of many worthy "pugs" who proved no match for him in the ring.

In Creamer it is anticipated that Bresnahan will find an opponent, who is not to be considered lightly. "Dick" has a hard punch, is a dexterous ring general and has never yet been made to take the count. He is going through a rigid course of training for the battle and will enter the arena in perfect condition. "Dick" feels confident of putting one over on the Michigan boy.

Tickets for the exhibition are selling at \$1.00 general admission, and \$1.50 for ringside seats. There is a brisk advance sale.

#### RETURNS IN GOOD HEALTH

Declaring that he has never before felt better and looking the picture of perfect health, Mike, Delan former representative for the Schlitz Brewing Company in this city, returned Saturday from a three months sojourn at Hot Springs, Ark. The baths which he took at that famous health resort gave him untold benefit and he cannot speak too highly of their curative powers.

A souvenir paper weight which Mr. Dolan bought at Hot Springs was presented by him to the New North office, Tuesday. The kind remembrance is appreciated.

Miss Ethel Taylor of Menico, spent Sunday here.

### ARMSTRONG CREEK GROWING

Grimmer Saw Mill Is Bringing In Many New Settlers

Armstrong Creek, the Soo line town, just east of this city, is experiencing a marked growth according to reports.

The Grimmer Land Company, a Marinette concern, has built a saw mill there which has been the means of drawing many new residents. The lands near Armstrong Creek are very suitable for farming and within the last year have been rapidly settled. A large school house and a Catholic church will be erected there the coming summer. The present school building has been found too small for the number of pupils enrolled.

The prospects are excellent for Armstrong Creek to develop into a live town.

#### NEW STATE MAPS

All the schools of the county will shortly receive official railroad maps of the state of Wisconsin. The maps are three feet by four feet. Besides giving the territory of the state by counties, they show the steam and electric railroads within and those running thru it; gives data of the number of acres of land in Wisconsin available for settlement; the number of state and county institutions of learning, the value of manufactured products in the state last year, the population and area of the counties in the state and the distances the county seats are from Milwaukee. The maps are received from the state superintendent. F. A. Lowell, county superintendent has a number of these maps which he will distribute to the schools under his supervision.

#### DON'T BE BALD

Nearly Anyone May Secure a Splendid Growth of Hair.

We have a remedy that has a record of growing hair and curing baldness in 93 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and we mean it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Rexall "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny, paid us for it, in every instance where it does not give entire satisfaction to the user.

Rexall "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed and does not grease or gum the hair. Two sizes, 50c. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Rexall store. J. J. Reardon, Rhinelander, Wis.

#### COMES HOME TO VOTE

Assemblyman D. B. Stevens came home from Madison Saturday for the purpose of voting and returned to the capital yesterday.

The legislature adjourned Friday until Wednesday night to give members an opportunity to vote at their respective homes.

### HONOR HER BIRTHDAY

Mrs. Alice Hanfin Pleasantly Surprised Tuesday Night

In honor of Mrs. David Jacobson's mother, Mrs. Alice Hanfin, the employees of Jacobson's store held a pleasant surprise party, Tuesday evening, at the Jacobson home on north Brown street. The occasion was Mrs. Hanfin's birthday. She was taken entirely by surprise and was presented with an appropriate gift by the invaders. Games, dancing and music were indulged in until the midnight hour. Mrs. Hanfin has made her home with her daughter for the last year and has a large list of friends in the city who wish her many more happy birthdays.

### PUBLIC LIBRARY NOTES

Many New Books Are Placed On The Shelves.

One of the most important books which has been published within last year or so is "The Promise of American Life," by Herbert Croly. The author's immediate practical object in writing the book as given by him is that of stimulating serious and disinterested thought in relation to the fundamental problems of American life.

Mr. Croly is both apt and keen-witted in his way of illustrating theories and beliefs by practical applications. One chapter which will attract very special attention, is that which considers the aims and methods of four typical reformers, Jerome, Hearst, Bryan and Roosevelt. President George E. Vincent of the University of Minnesota says, "The book will take its place in the literature of group psychology as well as among the best studies of society in the United States."

Adult fiction which has been added to the library since the last printed list is as follows:

Abbott—Molly Make-Believe.  
Bennett—The Shogun's Daughter.  
Bosher—Mary Cary.  
Brown—White Roses.  
Burnham—Clever Betsy.  
Collins—Woman in White.  
Laut—Freebooters of the Wilderness.

Goodwin—The Up Grade.  
Gale—The Loves of Pellen and Etarre.

White—The Rules of the Game.  
Williamson—Lord Loveland Discovers America.

#### SALVATION ARMY MAY RETURN

It is reported that the Salvation Army is to reopen barracks in this city. Owing to lack of interest and poor financial aid the Army abandoned its work here last fall. According to the report officials of the organization have decided to reorganize here and will shortly send an officer to the city for that purpose.

There are some people of the opinion that Rhinelander is "too good" to be a desirable field for the Salvation Army. This may be so.

## La Follette's WEEKLY MAGAZINE

The Great Progressive Weekly

There are many reasons why you should read what it says 52 times each year. It is free to tell the truth. It will oppose the encroachment of special privileges upon the people's rights. It will call the roll on public men and measures and inform you how your congressmen work and vote. It will criticize the executive branch of government from the highest to the lowest, if in its judgment the people's interests are not protected. It will spread the gospel of ideal home life through the Women's Department. It will be conservative when good things are to be conserved, and radical when bad things are to be exposed.

## ANNUAL EASTER BALL

Company L Entertains at Armory, Monday, April 17.

The first big social event after Easter in this city will be the thirteenth annual ball of Company L at the Armory, Monday evening April 17. This will be a public event to which all people in quest of a good time are cordially invited. The boys of the local militia have given many enjoyable dances during the past and the Easter ball this year promises to eclipse them all. The hall decorations will be elaborate and the floor will be in perfect condition. Music will be by the Military orchestra.

The committee on arrangements is as follows: Lieut. Himes, Serg. Boufford, Q. M. Serg. Wesley, Serg. Reynolds, Corp. Dayton, Privates Perion, Caldwell, Fenelon, Moore, Owens, Reynolds, Hein, and Sloan.

## BURN HIS HOUSE

H. C. Rode Says Woodsmen Are Responsible for Damage

H. C. Rode reports that a crew of woodsmen on their way to camps along the Soo railroad entered his unoccupied farm house and set fire in the second story. The floor was burned and the interior of the building practically ruined. Mr. Rode has an idea who the responsible parties are but is unable to secure sufficient evidence to prosecute. One year ago the windows and doors of the same house were broken and other costly damage done about the property.

Mr. Rode proposes not to endure these outrages any longer and should another occur he will make an effort to bring the guilty ones to justice.

JOHN BRUEGGENMAN.

Both the Bijou and Majestic theaters are drawing large crowds nightly. Splendid lists of pictures are being produced at these houses and the patrons always leave feeling that they have received more than their money's worth. Moving pictures are always popular.

Miss J. E. Matz is confined to her home with an attack of lagrippe.

## WILL LOCATE AT CHIPPEWA FALLS

Messrs. Hanson & Taylor Get Possession of Two Popular Theaters There.

Mr. and Mrs. P. J. Hanson and Alex Taylor leave Rhinelander next week for Chippewa Falls at which city Mr. Hanson has purchased the Gem Theater, the leading motion picture house, and will also acquire possession of the Victor Opera House. The deal for the lease of the latter theater will be closed within a short time.

Since relinquishing their hold on the Grand Opera House and Bijou theater in this city Hanson & Taylor have visited several cities in search of locations and have decided on Chippewa Falls as the most suitable. Both the Gem and Victor are old established theaters there and do a profitable business. The Victor is one of the most popular play houses in that part of the state and caters to only the highest class of attractions. Mr. Hanson considers that he has made a prudent business move.

The citizens of Rhinelander can conscientiously recommend both Mr. Hanson and Mr. Taylor to the people of Chippewa Falls, as men of clean business principles. Three years ago they started a moving picture show in this city. Later they obtained leases of the Bijou and Grand Opera House, which theaters they successfully conducted up to the time of their retirement last January. They managed to furnish the public with bright wholesome amusement and it was while under their management that the Bijou gained its reputation for giving one of the most entertaining moving picture exhibitions in the state. In all their dealings here Messrs. Hanson and Taylor have been honest and upright. That success may attend them in their new field is the desire of their numerous friends.

## FLASHES FROM THE HEADLIGHT

Bits of News Pertaining To The Soo and Northwestern Railroads

The Hurley Miner says that the steel work for the new double track bridge, which the Chicago & Northwestern will build across the Montreal river between Hurley and Ironwood, was received last week and is now in the Ironwood yards. Work on the new bridge will commence very soon.

There is no question but what the proposed Soo Line extension connecting Mellen with St. Paul and Minneapolis will be constructed the coming summer. Undoubtedly as soon as this line is completed the Soo will run through trains from Ironwood and Hurley to the Twin Cities and ultimately start those trains in the copper country so that such a train connecting the copper country with St. Paul and Minneapolis would prove a very profitable schedule.

A car which left Rhinelander loaded with lumber bound for Gladstone, Mich., one day last week, was found to be empty upon its arrival in the Soo line yards at its destination. Every board had been removed. When and where the cargo disappeared is a mystery beyond the comprehension of the train men. Freight car robbers have been known to pull off some bold wholesale thefts but this is said to be the first instance of their ever having deliberately appropriated an entire car load of lumber. The railroaders are wondering that they did not also take the car.

Trainmen on the two railroads running through Rhinelander inform a New North reporter that tramps are unusually numerous for this season of the year. The crews find it no easy task to keep the "boes" off the trains.

A Soo freight train of exactly 92 loaded cars pulled by one engine left the yards of this city east bound last Thursday afternoon. The train was one of the heaviest ever run on the Soo system and attracted the attention of the people in all the towns through it passed.

Amos Woodruff of Gladstone, Mich., is serving as night foreman at the Soo round house in place of H. E. Schellenger who is taking a two weeks' lay-off.

### WHY HESITATE?

An Offer That Involves No Risk For Those Who Accept It  
We are so positive our remedy will completely relieve constipation, no matter how chronic it may be, that we offer to furnish it free of all cost if it fails.

Constipation is caused by weakness of the nerves and muscles of the large intestines or descending colon. To expect a cure you must therefore tone up and strengthen those organs and restore them to healthier activity.

We want you to try Rexall Orderlies on our guarantee. They are eaten like candy, and are particularly ideal for children. They act directly on the nerves and muscles of the bowels. They have a neutral action on the other organs or glands. They do not purge or cause any inconvenience whatever. They will relieve constipation and the myriads of associate or dependent chronic ailments. Try Rexall Orderlies at our risk. Two sizes, 10c. and 25c. Sold only at our store—The Rexall Store, J. J. Reardon, Rhinelander.

### IN MILWAUKEE HOSPITAL

Mrs. H. E. Schellenger was taken to Milwaukee Sunday night, by Dr. I. E. Schieke and her daughter, Mrs. Earl Pratt, and was confined in Trinity hospital where she will undergo a difficult operation. Mrs. Schellenger has long been an invalid and within the last three months her condition has become grave. Mr. Schellenger and son, Elmer, will go to Milwaukee Saturday.

### ONE CONDUCTOR HELPED BACK TO WORK

Mr. Wilford Adams is his name, and he writes: "I was confined to my bed with chronic rheumatism and used two bottles of Foley's Kidney Remedy with good effect. The third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It will do all you claim in cases of rheumatism." It clears the blood of uric acid.

## The Good Things To Eat Man

### GOOD DRAMATIC CRITICISM

The late Richard Mansfield always felt that he owed more to the wise discernment and staunch support of The Chicago Record-Herald than to any other agency, outside himself, that contributed to his ultimate triumph as an actor. Ask any disinterested observer of theatrical matters today who is the best dramatic critic in Chicago, and ten to one he will say James O'Donnell Bennett of The Chicago Record-Herald. Mr. Bennett is unquestionably the leading critic in his domain in the West. He writes with a fearless fairness and a keen appreciation of real merit that makes his articles a genuine force for the betterment of the stage. His knowledge of the history and principles of dramatic art is sufficient to lend depth to his utterances, yet he has the newspapers man's knack of making his work breezy and interesting for the average man and woman. His columns are always newsworthy as well as reliable in their judgments. Anyone who will follow the dramatic, musical, literary and art departments of the Chicago Record-Herald from season to season need have no fear about keeping abreast of all that is latest and finest in the movement of modern culture.

**You Will Be Proud**  
of the appearance of your stove

IF YOU USE

**Black Silk Stove Polish**

It makes old stoves look like new and lasts four times as long as any other shine. Don't imagine all brands of stove polish are alike. Black Silk is different. It's so much better than other stove polishes that there is absolutely no comparison. It's in a class all by itself.

It makes a brilliant, glossy shine that anneals to the iron—don't rub or dust off. Give it a trial. Try it on your parlor stove—your cook stove or your gas range. If you do not find it the best stove polish you ever used, your dealer is authorized to refund your money.

Here is what some of the ladies write us:

"I like Black Silk Stove Polish better than any I have ever used. People say, 'where did you get your new stove?' and I tell them it's Black Silk Stove Polish that makes it look like new."

"I will not use any other kind when I can get Black Silk Stove Polish. It makes stoves look like new and stay like longer than any other polish."

"Black Silk Stove Polish is by far the best I ever used. I have tried many different kinds but find none as good."

"Like Black Silk Stove Polish better than any I ever used. Several parties in this neighborhood are anxious to get some of your polish since they saw my stove after using it."

Ask your hardware and stove dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the ordinary kind so why not have the best?

### DEATH CALLS ROLAND BRUSH.

Antigo Boy Well Known Here Succumbs to White Plague

Mr. and Mrs. Robert Brush and Mrs. Lenn Markham returned Saturday from Antigo where they attended the funeral of their nephew and cousin, Roland Brush Jr.

Roland Brush was twenty-three years of age and until a few months ago he was employed in the train service on the Northwestern road. Last summer he made Rhinelander his headquarters while braving a log train. Death was due to tuberculosis. About seven weeks ago he was brought home from the state sanatorium at Wales where he underwent treatment for the disease.

Deceased is survived by his parents, one sister and four brothers, one of whom is Rhinelander Brush, formerly of this city.

## A WILY ORIENTAL

Guile of a Tricky Native Snake Charmer In India.

### GATHERED IN THE SERPENTS.

It Was No Trouble to Him to Lure the Reptiles into His Basket, and the Supply Was in No Danger of Giving Out and Losing Him a Job.

Among the numerous objectionable and dangerous creatures peculiar to the orient none is more repulsive than the snake. One shudders involuntarily as one thinks of its wriggling body and vicious characteristics. During my residence in India I never felt safe from its presence. I had my closets, bed and even my bathtub searched every day lest one should be found coiled up in some corner, writes Eliza K. Van Bergen in the Christian Intelligencer.

I was always on the watch for the creatures and ever in mortal terror of treading on one. It never occurred to me to sleep without a light, and a stick was always near at hand lest I might find one unawares and be unprepared to meet it. I even looked upon my thin mosquito curtain as a slight protection, for it would at least break its fall should a snake tumble down suddenly from the ceiling. The creatures have a decided preference for cool, damp places and often choose the bathroom and sometimes the tub for their habitation, much to the discomfort of its rightful habitue. It is not unalloyed bliss to live in a place infested with serpents. With such formidable enemies, one never forgets to be cautious, nor to guard against their presence and sudden attack. It makes one alert to be in the midst of danger and adds spice to life.

Well, as I started out to say, my garden was infested with snakes, and I was persuaded to have a native charmer summoned to lure them away. His hideous occupation, weird incantations and strange pets surround the snake charmer with a peculiar fascination. His magnetism and skill are considered phenomenal in the east.

This specimen was tall and lank and had deep, cavernous eyes and an abstracted air. Some of the creatures were coiled around his wrist, which made him still more repellant. He handled them as if they were perfectly harmless. About the neck he wore a chain with a fute attached. Two other jugglers accompanied him, similarly attired, but minus the snakes. One carried a closed basket on his arm.

He stopped at a respectful distance to make his "salaam," which is the customary salute of the country. Then he approached the alce hedge which inclosed my grounds, squatted himself in fashion on the grass and began to produce weird, plaintive sounds on the fute, to which music the reptiles entwined themselves around him and seemed to sway their bodies to and fro.

After some time a snake appeared, gliding slowly and stealthily out from the hedge toward the spot where it heard the enchanting music. The charmer allowed it to come quite close and to wind itself around his arm. Another followed and yet another, while the other two men stood by holding a basket ready to receive them as soon as they unwound themselves. At least a half dozen appeared and were disposed of in this manner. After being captured they appeared as if in a stupor.

Horrified with his performance, I begged him to stop and bade him leave the place. He assented and, picking up the basket, departed with the snakes without ever ceasing to play his uncanny tune. His companions gathered up the rest of his belongings and followed him. I paid a certain sum for each snake thus dispatched.

He came repeatedly thereafter and went through the same performance, conjuring up more reptiles and disposing of them in the same way until I began to suspect some trickery. He refused to allow the snakes to be killed, insisting that they were sacred and must not be put to death. It looked as if he replaced the snakes in the hedge after removing them, and thus he multiplied their number and increased his gains.

I was finally forced to have him removed by the police and threatened with punishment in order to keep him away. Nothing would persuade me to permit one of the fellows to enter my premises again.

Ample Qualified. Proud Parent—If you would win my daughter, young man, you must prove to my satisfaction that you have fortitude, patience under discouraging circumstances, strength of character, courage, an indomitable will to succeed, and, above all, an ability to bear with misfortune. Good Cause For It. "A friend of mine who visits that newly married couple saw the husband the other day throwing stones at his wife." "Good heavens! Was she hurt?" "Not a bit of it. She was just tickled to death. They were diamonds."—Delicieux American.

Never let anything get on your nerves.

## MEASURES ALTITUDES.

The Use of the Barograph on Aeroplanes and Balloons.

What the compass is to the mariner the barograph is to the aviator. The barograph is an instrument for measuring altitudes. The pressure of the air as it increases or decreases causes a delicate needle to trace a wavy line upon a cylinder which revolves by clockwork. This line indicates not only the exact height that is reached by the aviator, but also the speed at which he is traveling.

The barograph is kept in a weather proof box with a glass front, which is attached to a bar of the aeroplane or to a rope on the balloon. It is officially sealed before the aviator embarks, so there is no possibility of tampering with it, and the seal is taken off in the presence of witnesses at the end of the flight. In this way it is possible to establish absolutely and graphically the altitude which an aviator attains in his aeroplane or balloon. It is necessary for the aviator to watch the barograph constantly, as it indicates a change in the elevation almost to the foot. The sky pilot has to keep his eye on the indicator much as the man at the wheel of the seagoing ship watches his compass. Should the aeroplane or the balloon rise or fall ten or twenty feet the aviator would not be conscious of it unless he looked at the wavering needle tracing its permanent record on a chart before him. This tells him immediately of any changes in the nature of the air currents and gives him timely warning of aerial dangers.

These instruments are so delicate and so accurate, it is said, that a man might hang one of them about his neck in its glass case or carry it in his hand and climb a flight of stairs, the height of his ascent being graphically indicated by the inked needle on the machine.—New York Press.

### A CAREFUL MAN.

His Indecision in the Matter of Employing a Doctor.

The parsimony of the old New Englander of the type now almost vanished was nobly exemplified in Mr. Benny Huntington, who lived with his maiden sister in a little town in western Massachusetts. Neither had ever spent a penny unnecessarily and when in his old age Mr. Benny became crippled with "the rheumatism" and had, as well, strange flutterings of the heart, which were unrelieved by the best recommended "jars tea," they were greatly shocked at the suggestions and warnings of their friends and neighbors that they ought to send for a doctor. Mr. Benny refused, declared his scorn of the entire medical profession and continued to save his pennies.

But the pain grew worse. Mr. Benny was confined to his bed in great agony and overheard some of the neighbors telling his sister that he was going to die. Then he sent for an old schoolmate, a man as "careful" as himself.

## David Jacobson,

"The BIG Store with LITTLE Prices" RHINELANDER, WIS.

"Josiah," he asked, in a low, confidential tone, "have you ever had a doctor?"

Josiah shook his head. "Dunno as I have," he answered.

Mr. Benny reached out and laid a trembling hand upon his old friend's arm. "Josiah," he asked again, "did you ever hear how much one of them doctors charges for a visit?"

Josiah looked at his suffering friend with pitying sympathy. "Well," he said, breaking it as gently as he could—"well, I have heard, Benny, that they charge as much as \$2 a visit!"

"Two dollars?" Mr. Benny repeated. "Two dollars!" Then he sank back on his pillow and sighed in a voice of strangely mingled relief, regret and resignation. "Well, I dunno but I'd rather spend \$5 than die!"—Youth's Companion.

### The Licorice Plant.

The licorice plant resembles a rose with a single green stem, reaches a height of about three feet and bears a small purple star shaped flower. The first year's root growth resembles a loosely twisted string of tow and may run to twenty feet in length. The second year it assumes a woody substance when dry, and the third year it acquires its commercial value. The time for digging the root is the winter, when it is dried and crushed under heavy stones drawn round on it by mules, such as olives are crushed to extract their oil.

### Queer Kaffir Custom.

Kaffir women will not pronounce their husband's names or even use words which contain the emphatic syllable of those names. One old woman, being taught to say the Lord's prayer, changed the word from "come" in "Thy kingdom come" to something that made nonsense, and it proved that the proper "come" word was the main syllable of her husband's name.

### Proving His Contentment.

"Jones is an optimist, even in the most discouraging circumstances, isn't he?"

"Why, no. His mother-in-law is slightly indisposed, and he thinks there's no hope for her recovery."

"Well, what did I tell you?"—Cleveland Leader.

### Chess in Ancient Ceylon.

In ancient Ceylon the game of chess was played with local variations peculiar enough to note. The king may not castle, but he is permitted to jump like a knight till checked. The pawns are exchangeable on the last row for the pieces on whose row they stand.

Through the world may one day see a king, only the pawn of the chess game.
